Product Description

Overfill Protection Mini Fuel Station with Automatic Shut off

Product Description:

The Mini Fuel Station is made of durable plastic material, ensuring reliable and long-lasting use. Its sleek white design not only looks great, but also makes it easy to spot in any environment. Featuring an automatic nozzle type, this mini fuel station ensures efficient and hassle-free fuel dispensing. Whether you're filling up your personal vehicle or servicing a fleet of cars, the Mini Fuel Station has got you covered. With its compact size and portability, the Mini Fuel Station is the perfect solution for those who need a mobile gas station that can be easily transported from one location to another. Whether you're a small business owner, a fleet manager, or just someone who needs to refuel on the go, this mini fuel station is the perfect choice. Don't let the size fool you - the Mini Fuel Station is capable of handling all your fuel dispensing needs. So why wait? Get your hands on the Mini Fuel Station today and experience the convenience of a mobile gas station right at your fingertips.

Features:

Product Name: Mini Fuel Station

Power Source: Electric

Material: Plastic

Dimensions: Customized

Model: C1

Color: White

This mini fuel station is a mobile gas station that can easily be transported and set up wherever you need it. It is powered by electricity, so you don't need to worry about fuel emissions or running out of gas. The plastic material makes it lightweight and durable, while the customized dimensions allow for easy storage and transport. The C1 model is perfect for small-scale fuel dispensing needs, and the white color gives it a clean and professional look. With the Fuel Mobile Dispenser, you can easily and safely dispense fuel wherever you need it.

Technical Parameters:

Capacity	1-8CBM
Flow Rate	40-60L Per Minute
Material	Plastic
Voltage	220V
Nozzle Type	Automatic
Application	Gasoline, Diesel, New Energy
Dimensions	Customized
Model	C1
Color	White
Certifications	UL Listed, CSA Certified

Applications:

The Mini Fuel Station is a mobile gas station, making it perfect for those who need to transport fuel to different locations. It is an ideal solution for remote areas or sites that lack access to traditional fuel stations. The small size of the Mini Fuel Station makes it easy to transport and store, but it still packs a punch. It can hold up to 110 gallons of fuel, making it a reliable source for a variety of applications. The Mini Fuel Station is suitable for a wide range of applications, including construction sites, mining operations, farming, and emergency response situations. It is also perfect for businesses that need to provide fuel for their fleet of vehicles. The Mini Fuel Station can be used to fuel cars, trucks, boats, and other equipment.

The Mini Fuel Station comes with a 6-foot hose and an automatic nozzle, making it easy to use. Safety features include overfill protection and automatic shut-off, ensuring that the product is safe and reliable to use.

In conclusion, the Mini Fuel Station by Virette is a mini gas station that is perfect for mobile fueling needs. It is a reliable and safe solution for a variety of applications, offering convenience and accessibility to fuel.
