Product Description

Heavy Duty Diesel Fuel Dispensing Pump NPT2 Outlet with Sealing Ring

Features:

Product Name: Fuel Pump

Sealing Ring Included: Yes

Outlet: NPT2"

Inlet Type: Strainer

Type: Electric

Weight: 15Kgs

This Fuel Pump is an Automotive Fuel Supply Device that can be used as a Fuel Dispensing Pump at a Petroleum Transfer Station.

Technical Parameters:

Attribute	Value
Compatibility	Universal
Engine	Diesel Fuel Engine Parts
Float Included	Yes
Outlet	NPT2"
Sending Unit Included	No
Type	Electric
Weight	15Kgs
Warranty	1 Year
Duty Cycle	30 Min
Sealing Ring Included	Yes

This Automotive Fuel Supply Device is compatible with most Diesel Fuel Engine Parts and includes a float. It has an NPT2" outlet and does not include a sending unit. This electric pump weighs 15Kgs and has a 1-year warranty. The duty cycle is 30 minutes and a sealing ring is included. Ideal for use in Filling Station Dispensers or Petroleum Transfer Stations.

Applications:

One of the most common applications of the Virette f0 fuel pump is as a replacement for a diesel fuel injector. When an injector fails, it can cause a variety of problems, including poor fuel economy, reduced power, and increased emissions. The Virette f0 is an excellent replacement option for those looking to restore their vehicle's performance and efficiency.

Another common use for the Virette f0 fuel pump is in filling station dispensers. These pumps are used to fill up vehicles at gas stations, and they need to be reliable and efficient to keep customers happy. The Virette f0 is an excellent choice for filling station owners who are looking for a pump that can handle high volumes of fuel without breaking down.

The Virette f0 fuel pump is also ideal for fuel dispensing pumps that are used in industrial or agricultural settings. These pumps need to be able to handle heavy usage and work reliably in harsh environments. The Virette f0 is designed to withstand these conditions, with a duty cycle of 30 minutes and a float included to ensure accurate fuel measurement.

In summary, the Virette f0 fuel pump is a versatile and reliable option for those in need of a new fuel pump. Whether you are looking to replace a diesel fuel injector, operate a filling station dispenser, or use a fuel dispensing pump in an industrial or agricultural setting, the Virette f0 can meet your needs. With its 1-year warranty and universal compatibility, it is an excellent investment for anyone looking for a high-quality fuel pump.
