

Aluminum Gas Nozzle Automatic Shut Off 10 GPM High Flow Fuel Nozzle

Basic Information

- Place of Origin: China
- Brand Name: Virette

Product Specification

- Certifications: UL, CSA, CE
- Quality: Guranteed
- Size: 5.5 Inches
- Cylinder: Multi-cylinder
- Nozzle Diameter: 1 Inch
- Model: 11A
- Flow Rate: 10 Gallons Per Minute
- Material: Aluminum
- Highlight: **aluminum gas nozzle automatic shut off ,
10 gpm high flow fuel nozzle ,
gas nozzle automatic shut off 10 gpm**

Product Description

High Strength Aluminum Fuel Nozzle with 10 GPM Flow Rate and UL/CSA/CE certifications

Product Description:

The Fuel Nozzle features a trigger lock that allows you to control the flow of fuel with ease, as well as a splash guard that helps to prevent any unwanted spills or splashes. The automatic shut-off feature ensures that the nozzle will stop dispensing fuel once the tank is full, which helps to prevent any overflows or spills.

The Fuel Nozzle has a nozzle diameter of 1 inch, which makes it the perfect size for most gasoline and oil delivery spouts. Additionally, this nozzle comes with a 1-year limited warranty, which ensures that you can use it with confidence knowing that it is backed by a reputable manufacturer.

Overall, the Fuel Nozzle is a reliable and durable option for anyone who needs to dispense gasoline or oil on a regular basis. Its long hose length, trigger lock, splash guard, and automatic shut-off features make it a must-have for anyone who wants to ensure that their fuel deliveries are as safe and efficient as possible. And with its 1-year limited warranty, you can rest assured that you are making a wise investment in a high-quality product.

So if you are in need of a reliable petroleum flow nozzle for your gasoline or oil delivery needs, be sure to consider the Fuel Nozzle. With its top-notch features and dependable performance, it is sure to meet all of your fuel dispensing needs with ease.

Features:

Product Name: Fuel Nozzle

Nozzle Diameter: 1 Inch

Component: Fuel Injection Device

Size: 5.5 Inches

Certifications: UL, CSA, CE

Stamp Number: Dlla150s187

This Fuel Nozzle is a high-quality fuel dispenser nozzle designed for use with diesel fuel. It features a 1 inch nozzle diameter and a 5.5 inch size that makes it easy to handle and use. This diesel fuel gun is certified by UL, CSA, and CE, ensuring that it meets the highest standards of safety and performance. Additionally, it comes with a stamp number of Dlla150s187, further confirming its quality and reliability.

Technical Parameters:

Component	Fuel Injection Device
Certifications	UL, CSA, CE
Hose Length	10 Feet
Cylinder	Multi-cylinder
Flow Rate	10 Gallons Per Minute
Warranty	1 Year Limited Warranty
Size	5.5 Inches
Material	Aluminum
Model	11A
Temperature Rating	0-150 Degrees Fahrenheit

Applications:

The Virette Fuel Nozzle is ideal for use in various industrial and commercial settings, including fuel dispensing stations, trucking companies, and other transportation-related industries. This product is designed to improve the accuracy and speed of fuel dispensing and reduce the risk of fuel spillage, which can lead to environmental hazards and loss of revenue.

The Virette Fuel Nozzle has a pressure rating of 50 psi, which makes it suitable for use in high-pressure fuel dispensing systems. This product is easy to use and maintain, and it comes with a 1-year limited warranty that assures the user of quality and reliability.

The Virette Fuel Nozzle is a versatile petroleum flow nozzle that can be used in various scenarios and occasions. For instance, it can be used in fueling trucks, buses, and other vehicles in a timely and efficient manner. It can also be used in fuel dispensing stations to enhance the accuracy and speed of fuel dispensing, which can lead to increased revenue and customer satisfaction.

The Virette Fuel Nozzle can also be used in industrial settings such as factories, warehouses, and other manufacturing plants. This product can be used to dispense fuel for generators, boilers, and other equipment that requires petroleum products for operation.

The Virette Fuel Nozzle can also be used in agricultural settings such as farms and ranches. This product can be used to dispense fuel for tractors, harvesters, and other farming equipment in a timely and efficient manner.

The Virette Fuel Nozzle is a reliable and efficient diesel fuel gun that can be used in various scenarios and occasions. This product is designed to enhance the efficiency of petroleum flow and reduce the risk of fuel spillage, which can lead to environmental hazards and loss of revenue.

Customization:

Get your Virette Gas Pump Spout customized to match your requirements with our product customization services. Our nozzles are manufactured in China and come with UL, CSA, and CE certifications, ensuring their quality and safety. With a temperature rating of 0-150 degrees Fahrenheit, these nozzles are designed for use with multi-cylinder gasoline pumps. The model 11A is guaranteed to meet

your needs.

Packing and Shipping:

Product Packaging:

The Fuel Nozzle product will be packed securely in a custom-sized cardboard box with appropriate cushioning material to protect it from any damage during transportation.

Shipping:

The Fuel Nozzle product will be shipped via a reputable shipping carrier within 1-2 business days after the order is placed. The estimated delivery time will depend on the shipping destination and the shipping method selected at checkout. Customers will be provided with a tracking number to monitor the status of their shipment.
